

Our Fall Protection Series Interior Skylight Fall Screens are an ideal cost effective and easy-to-install solution to protect from accidental falls through skylights. The use of a Skylight Fall Screen eliminates the potential danger that exists with unguarded skylights and creates a safe working environment for all rooftop services. Built entirely from North American sourced, high-grade materials, this product is manufactured from heavy gauge, anti-corrosive galvanized welded steel to provide the ultimate protection. Our screens have been tested to the latest CAL-OSHA requirements.

Artistic Skylight® offers the widest range of standard sizes available that can also be customized to fit almost any project application.

Specifications:
Openinations.
Interior Skylight Fall Protection Screen
Contractor: shall be factory-built Model
NoFPS-FS as manufactured by
Artistic Skylight Domes Ltd. Vaughan,
Architect: Ontario. Screen shall consist of 4 x 4 x
4/4 (4 ga .226") galvanized welded wire
mesh. Fall screen mounting clips come
Approved By: fabricated with pre-punched mounting
holes and are mounted at 8" O.C.
Interior Skylight Fall Protection Screen
Date: will ship complete with all components
that may require some site assembly.

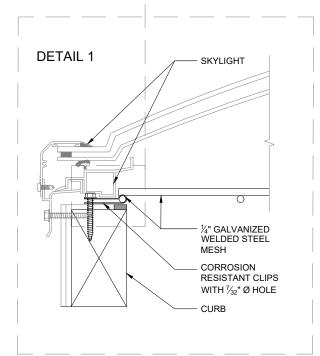

Note: It is the sole responsibility of the customer to ensure that the product selected meets the building codes for the jurisdiction in which they are being installed.
